

CANINE COUNTRY CLUB

The Many Dimensions of Doggie Daycare

By Michelle Mantor Photos By Evin Thayer

If variety is the spice of life, then Canine Country Club has enough flavor for one zesty doggie party! Located just on the edge of Houston in Katy, Canine Country Club offers such an array of fun and top quality training that returning guests come bouncing out of cars and into the front door each day with so much enthusiasm that you never need wonder if they are enjoying their experience.

Doggies that are frequent daycare guests at the "club" not only have a great opportunity to socialize but they also have a enough variety of activities to keep them engaged...which translates to a much calmer, happier dog at home. "Our daycare dogs have a blast running, swimming and playing but what they don't recognize, which is a benefit to their owners, is that they are also being coached by our staff on good manners and behavior," notes owner Jeff Murphrey who is also a certified trainer.

This top notch facility, which also

offers boarding, grooming and training, provides both a selection of activities as well as boasting the space to provide 3 outdoor and 2 indoor areas for play. First up is the super fun "Splash Pad" where dogs frolic in the water jets keeping cool in Houston's climate and also just enjoying the fun of playing in random moving water. The Splash Pad sets up those water loving canines just perfectly for their next adventure, the swimming pool. Endless hours of ball throwing by the staff and epic jumps by the dogs will wear out even the most energetic pooch!

If water is not your dog's thing, no fear - there are plenty of other choices for a good time. Another area on the property is set up with agility equipment for the sports minded pup or the staff is ready to provide custom tailored activities available in the "a la carte" daycare options including training while in daycare, one-on-one playtime, nature walks, special snack

time or maybe a trip into the grooming spa for a little pampering.

If the weather is not cooperating, be it rain or a heat wave, Canine Country Club has just the solution - 2 indoor areas for small and large dogs to both play or relax.

If your dog is hanging out at home all day bored or exhibits destructive behavior from pent-up energy or would benefit from socializing and mental stimulation, daycare is the perfect solution. Whether your pup visits a couple of times per week or everyday, you will find the value of the daycare experience for their well-being immeasurable.

Temperament testing is required for all daycare clients so call Canine Country Club to set up testing (see the special offer below) or visit their website to explore their comprehensive services available for your every doggie need - be it daycare, training, grooming or boarding - they not only have it, they have it in spades!

TAKE A FRIEND TO DAYCARE TUESDAYS.

Guest dog receives a free temperament test (value \$20) and the client dog receives a free day of daycare.

ENROLL IN THE "DAYCARE PUNCHCARD PROGRAM"

Daycare can be as low as \$21.74 per day!

TRAIN WHILE IN DAYCARE

Create an individualized training program for your dog while they are in the daycare.
